

## TECHNICAL BULLETIN

# NXT GENERATION® TECH WAX™

After 10 years of research and development into advanced polymer chemistry, Meguiar's has created a wax powered by Engineered Synthetic Polymer (ESP) technology. The result is the most advanced synthetic protectant available for today's modern paint finishes. Our ESP technology eliminates fine scratches and swirls and leaves your finish deeper, wetter, shinier and more reflective. NXT Generation™ Tech Wax also offers the most durable protection available today by creating a tough polymer barrier film with anti-corrosive agents.

**Part #:** G12718 - 532ml Liquid wax with applicator  
G12711 – 311g Paste wax with applicator

**Packaging:** 532ml Spray - 6 per case  
311g Paste - 6 per case

**Features:**

- Amped up, deep wet-look shine
- Xtreme synthetic polymer protection

**pH:** 8

**Paintable:** No

**Dilution:** RTU (Ready to use)

**Application Method:** Hand, orbital, D.A. Polisher

**Directions:** **Shake Liquid wax** well. For best results apply to a clean, cool surface in the shade. Apply a small amount on a foam applicator and spread an even, thin coat over the entire vehicle and let dry. **KEEP OFF VINYL, RUBBER, AND CLOTH SURFACES.** Remove excess with a clean 100% cotton terry cloth towel and rub thoroughly onto surface of leather. Use separate 100% cotton, terry towel or Microfiber, turning towel to a clean portion of the towel for final wipe. For best result, use Meguiar's Supreme Shine Microfiber.

**Health rating:**

Health:	1
Fire:	0
Reactivity:	0
Specific Hazard:	N/A
