## Hot Rims™ Mag & Aluminum Polish

Make your uncoated aluminum shine like chrome with Hot Rims Mag & Aluminum Polish. Our unique formula creates a brilliant, dazzling shine on ALL metals, quickly removing oxidation, tarnish and stains but without hazardous, foul-smelling chemicals. The wide mouth tin makes it easy to access either by hand or polishing tool, and the hot cinnamon scent will have you looking for more metal to polish!

**Part #:** G13508 – 237ml paste

**Packaging:** 6 per case

**Features:**

- Creates a Brilliant, Mirror-Like Shine!
- Great for all metals!

**pH:** N/A

**Paintable:** No

**Dilution:** RTU (Ready to use)

**Application Method:** Wipe on, wipe off

**Directions:** Apply a small amount of polish onto surface with a clean, 100% terry cloth or foam applicator. Hard rubbing is not necessary. Gently rub polish onto metal surface until black residue appears. Residue buffs off easily with a clean 100% terry cloth or microfiber. Does a spectacular job on brass and copper. Not recommended for gold plating, anodized, painted or clear coated aluminum wheels.

**Health rating:**

|                  |     |
